

**EDGE® POST POUNDER AND PULLER**  
 The EDGE post pounder and puller is the one essential tool needed for cost effective fence installation and demolition all in one. This cost-effective tool can also be used to remove wooden or metal fence posts quickly and easily. It is ideal for use in agricultural applications or for property line fences with solid steel or wood posts.

### OPERATIONAL BASICS

This one-person operation can drive fence posts as wide as 10 inches and up to 10 feet long into the ground in minutes. No need to every touch the post by hand. Use the EDGE post pounder and puller to pick up the post and position it using the 12" plumb chain and drive it into the ground. Finished posts can go as low as 18" above ground. Recommended minimum skid steer lift capacity of 1650 lbs. Optional T-Post adapter kit assists with pounding the pulling T-Posts. The post pounder and puller comes complete with hoses and couplers.

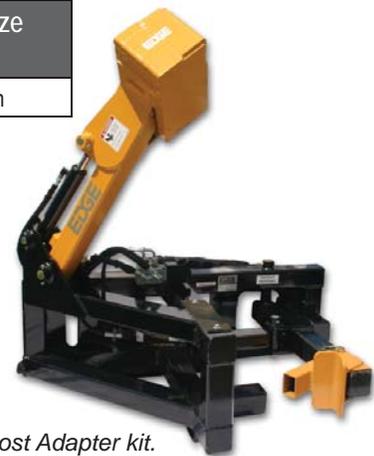

*Not recommended for use with decorative posts or cyclone pipe posts.*

### SPECIFICATION

Model	Weight (lbs/kg)	Hyd. Req. (gpm/lpm)	Impact at Full Stroke (in/mm)	Max. Post Size (rpm)
PP25S	650/295	15/57	48/1219	145 @ 40 gpm
