

EDGE GRADER BLADE

The EDGE grader blade attachment can turn your skid steer or track loader into a high-performance grading machine. It features a 96" (2438 mm) blade, control box for in-cab hydraulic control of angle and tilt, and a reversible/replaceable cutting edge. Also features a proportional current valve to gradually adjust the blade height, angle and tilt. It is ready to accept an optional laser control system for perfect grading. Comes complete with hoses and flatface couplers.

OPTIONAL EDGE LEICA LASER SYSTEM

Use the optional EDGE Leica laser system with an EDGE grader blade for a perfect grade every time! Contractors can enjoy simple, precise control that results in material and labor savings. The transmitter features -5 +25% grade capability in either axis (-5 to +15% in both axes) and high accuracy up to 3,608 ft. Perfect for building pads, parking lots and runways, land leveling or tilling, concrete forming and framework, retention ponds and batters, setting foundations and footings.
