

EDGE® SELF-FEEDING STUMP GRINDER

The EDGE self-feeding stump grinder is the perfect attachment for arborists, landscapers, large contractors or maintenance crews. This unit has a unique hinged pivot self-feeding design for grinding stumps up to 30" (760 mm) wide and as deep as 10" (254 mm) below ground in minutes. Easy hook-up and removal from most compact loaders.

OPERATIONAL BASICS

The EDGE stump grinder features a 24" (609 mm) cutting wheel with 36 teeth and is compact for easy transport and storage. The hydraulic controls are simple and easy to operate and there is no need for a separate electronic control box. Comes complete with hoses and flat face couplers.

SPECIFICATION

Model	Weight (lbs/kg)	Hyd. Req. (gpm/lpm)	No. of Teeth	Digging Depth (in/mm)	Drum Dia. (in/mm)
SG2	742/336	12-22/45-83	36	10/254	24/610

FEATURES

- Economical and easy to use stump grinder
- Hinged pivot self-feeding design for efficient operation
- 24" cutting wheel grinds stumps up to 30" wide and 10" below ground
- Easy to hook up and remove
- No need for a separate electric control box
