

INITIAL SERVICE

Maintenance contract

The Initial Service contract offers you a maintenance service adapted to your needs, on the basis of a fixed maintenance and on-site intervention fee. The servicing of your machine at least once a year is essential to keep it operating at optimum efficiency.

Services provided

- > Labour and on-site intervention.
- > Regular maintenance operations.
The technician carries out all the operations recommended by the manufacturer.
- > Preventive checks.
- > End-of-visit report.
After each visit, the technician supplies you with a report of the checking operations carried out.

Advantages

- > Affordable service adapted to your budget.
- > Straightforward arrangement.
- > Choice of duration and type of commitment.
- > Possibility to plan the visits in advance.

Options

- Mandatory safety control visit (according to applicable legislation)
