

### EDGE® POST DRIVER

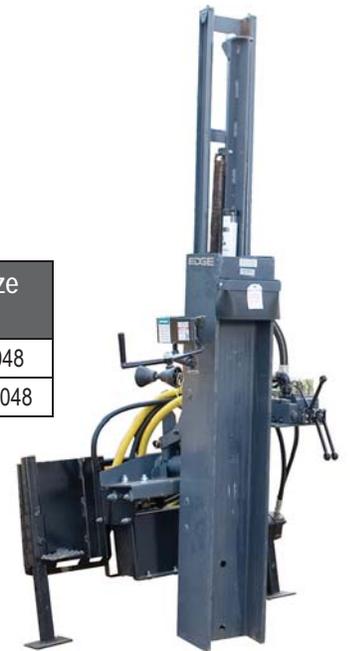

The EDGE post driver is an essential attachment for landscapers, grounds keepers and rental centers. Compact loader maneuverability allows the unit to be easily moved around buildings, storage sheds, trees and other obstacles, with minimal hydraulic power.

### OPERATIONAL BASICS

The EDGE hydraulic post driver produces a driving action to eliminate air pockets in the soil and provides an immediate air-tight post set. The EDGE post driver can drive posts as wide as 10.845" (276 mm) into the ground with finished posts 53" (1346 mm) above ground. This attachment features self-contained hydraulics for easy hook-up and tilts front to back (F) and side to side (S).

### SPECIFICATION

Model	Weight (lbs/kg)	Hyd. Req. (gpm/lpm)	Tilt (degrees)	Impact at Full Stroke (lb/kg)	Max. Post Size (in/mm)
PD35S	970/440	12/45	15 F/S	71,500/32,432	8375x120/222x3048
PD50S	1210/549	15/57	20 F/25 S	100,000/45,359	10.845x120/276x3048

Self-contained hydraulics for easy hook-up

### FEATURES

- Immediately create an airtight post set
- Self-contained hydraulics for fast, easy hook-up
- Drive posts as wide as 10.875" (276 mm) into the ground
- Bubble indicator ensures a straight post set
