

TRACK LOADERS

RADIAL-LIET

A LEGACY OF INNOVATION

WHAT BEGAN IN THE 19TH CENTURY AS AN AGRICULTURAL IMPLEMENT MANUFACTURER HAS GROWN INTO A 21ST CENTURY EQUIPMENT POWERHOUSE - MUSTANG COMPACT EQUIPMENT.

Known in the early years as the Owatonna

Manufacturing Company, Mustang was among
the first to make what is known today as the
skid steer loader. Since that time, Mustang has
combined old-school experience with innovative
processes to offer one of the broadest lines of
compact equipment available today.

MUSTANG. THE ORIGINAL WORKHORSE.

BLAZING ANEW TRAI

Since breaking into the track loader market in 2001, Mustang has learned a thing or two about what it takes to be an industry leader. Combine this expertise with input from some of the market's heaviest track loader users, and you get the RT Series Track Loaders from Mustang.

With many industry-exclusive features, including the patented Fold-Up Door and IdealTrax™ Automatic Track Tensioning System, the 1750RT NXT3, 2100RT NXT3 and 2500RT NXT3 will blaze a new trail in the track loader market.

▲ POWER and ▲ PERFORMANCE

ROUGH GROUND - YOU HAVE MET YOUR MATCH

INCREASED BREAKOUT FORCES NXT3 ENHANCEMENT

Enhanced breakout forces on the NXT3 models make these machines your greatest allies on the job.

 _			

LIFT

1750RT NXT3	5,354 lbs. (2429 kg)	5,016 lbs. (2275 kg)
2100RT NXT3	6,631 lbs. (3008 kg)	6,481 lbs. (2940 kg)
2500RT NXT3	8,384 lbs. (3,803 kg)	7,437 lbs. (3373 kg)

IDEALTRAX™ INDUSTRY-EXCLUSIVE AUTOMATIC TRACK TENSIONING SYSTEM

Eliminate weekly tension checks and costly track replacements with the IdealTraxTM system. Tracks are automatically tensioned when the engine is started and during operation.

POWER

TORQUE

1750RT NXT3 69.9 hp [52.1 kW] 2100RT NXT3 72 hp [53.7 kW]

kW] 179 ft.-lbs. [242.7 Nm] V] 206 ft.-lbs. [279.3 Nm] kW] 243 ft.-lbs. [330 Nm]

RATED OPERATING CAPACITY

 1750RT NXT3
 1,750 lbs. [794 kg]

 2100RT NXT3
 2,100 lbs. [953 kg]

 2500RT NXT3
 2,500 lbs. [1134 kg]

DEDICATED, WELDED TRACK LOADER CHASSIS

Custom built to aid in superior weight distribution, which enhances stability, grading, tractive effort, and ride control.

GROUND CLEARANCE CLASS-LEADING

1750RT NXT3 13.3" [343 mm] 2100RT NXT3 13.2" [335 mm] 2500RT NXT3 13.2" [335 mm]

HORSEPOWER MANAGEMENT SYSTEM

Monitors and adjusts the hydrostatic drive pump to produce the ideal tractive effort.

OPTIMIZED RADIAL LIFT ARM

Durable design provides increased strength and up to 128" (3251 mm) of lift height – higher than any competitor in their respective weight class.

STRAIGHT TRACKING

This feature provides for in-cab, tool-free adjustment of individual track speeds, ensuring the machine drives straight.

COUNTERWEIGHT/BUMPER

Gain extra tipping capacity while offering increased rear protection.

Optional on the 1750RT NXT3 and 2100RT NXT3. Standard on the 2500RT NXT3. Additional side-mounted counterweights optional on 2500RT NXT3.

▲ COMFORT and ▲ SAFETY

OPERATOR STATION COMFORT FEATURES

WITHIN REACH

Lights, windshield wiper, and all other controls conveniently located on the armrests.

RADIO OPTION

Factory-installed, this AM/FM deluxe radio option customizes the cab.

CLIMATE CONTROL

Heat is standard on all cab models. Upgrade to air conditioning for additional comfort.

INTEGRATED LCD DISPLAY

Easy-to-use, multi-function display incorporates all warning/operation lights and machine configuration screens. Single button allows for simple scrolling and selection of various display functions.

STRAIGHT TRACKING

Tracking is easily corrected from the cab using the display. It can also be used to compensate for offset or side-loaded attachments.

DRIVE SENSITIVITY ADJUSTMENT

Five settings are available to adjust the operator drive speeds and response times. Each user can customize the control to their preference using the LCD display.

Operator reel Elliulation
+ 20% = Fastest • Highly Responsive • Highest Volume
+ 10% = Quick • Very Responsive • Control
Standard Setting Normal Response Time Focused Productivity
- 10% = Precision • Improved Control
20% = High PrecisionEasy ControlMore Precise

VISIBILITY

A cab-forward design enhances the view to the bucket cutting edge from the operator's seat. Extra-large side screens, combined with a low-profile lift arm design, provide a wide field-of-view to the side work areas.

PRESSURIZED CAB

Optional, pressurized sealed cab enclosure with sound reduction material and large, rear-mounted cabin air filter provides a cleaner and quieter operating environment.

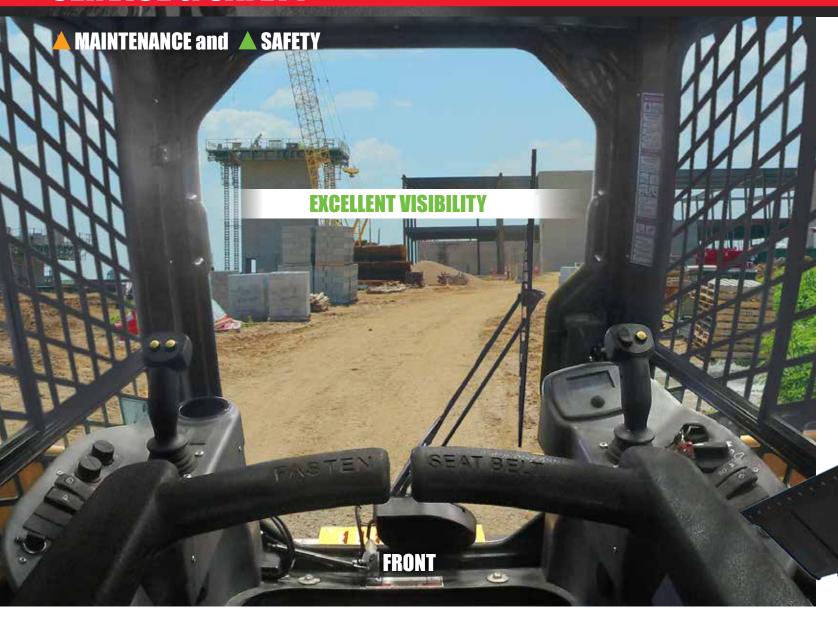

ARMRESTS/RESTRAINT BARS

All instrumentation and fully adjustable joystick control towers are conveniently located on the armrests for easy access. High-mounted restraint bars provide ample clearance for the operator's legs.

SERVICE & SAFETY

LESS DOWNTIME PUTS MONEY IN YOUR POCKET

IDEALTRAX™ INDUSTRY-EXCLUSIVE AUTOMATIC TRACK TENSIONING SYSTEM

Eliminates the need for manually tensioning the tracks on the loader before operation, saving valuable time on the jobsite.

Increases the life of the tracks (up to 15%* in tested conditions), sprockets and bearings by ensuring the proper tension immediately upon start-up and during use, and tension release when the machine is shut down.

Track changes in the field are facilitated with a simple switch in the rear compartment. Removing a track without the IdealTrax[™] system can take up to one hour per track. With IdealTrax[™], it takes just minutes.

*Track life improvement varies greatly depending on conditions, application and upkeep; results may vary.

17-TOOTH SPROCKETS NXT3 ENHANCEMENT

17-tooth, forged drive sprockets have 40% more hardness depth for improved sprocket life. Larger sprockets increase track-to-chassis clearance, so tracks can be cleaned out with ease.

ENGINE NOT RUNNING

ENGINE RUNNING

ENGINE ACCESS

Full access to filters and reservoirs for servicing and maintenance is made possible by a swing-out rear door and a large, lockable engine cover.

TILTABLE ROPS/FOPS ASSEMBLY

Featuring gas-spring assist for easy internal access to the pumps, hydraulic valve bank and drive motors.

SAFETY RESTRAINT

Innovative restraint allows for secure positioning of the cab in the maintenance position. Restraint can be secured in position by one person.

TILT-OUT FOOT POD

This feature allows for best-in-class foot well cleanout and provides perfect access to the fuel tank and other components under the cab.

EXCELLENT VIEWS FROM ALL SIDES FOR SAFETY AND PRECISE OPERATION

Excellent visibility to the front, sides and rear of the machine allow for precise placement of loads and reduced jobsite incidents. A high-mounted seat provides an excellent vantage point to the attachment and cutting edge.

ATTACHMENTS

NEED VERSATILITY?

Compatible with most allied loader attachments, the RT Series Track Loaders from Mustang provide superior loader functionality while minimizing damage to ground surfaces. Perfect for landscape, agriculture, construction or rental - these machines are up for any challenge.

To learn more about EDGE® Track Loader attachments, please visit edgeattach.com

GET ATTACHED

MULTI-TACH®

All models feature the easy-to-use All-Tach® (universal-style) attachment mounting system compatible with most allied attachments.

- SINGLE LEVER DESIGN for simplicity and strength.
- HEAVY DUTY MOUNTING PLATE design for increased rigidity over tube style.

POWER-A-TACH®

Power-A-Tach® all-weather system option allows users to quickly install and remove attachments. An operator leaves the seat only to connect auxiliary hydraulics. This system is compatible with most allied attachments.

ORIGINAL WORKHORSE

Mustang authorized dealers offer a full line of compact equipment, backed up by exceptional sales, service and parts experience.

Mustang reminds users to read and understand the operator's manual before operating any equipment. Also, make sure all safety devices and shields are in place and functioning properly.

Mustang reserves the right to add improvements or make changes in specifications at any time without notice or obligation.

For more information on Mustang equipment, visit

mustangmfg.com
