

COLD PLANER - HIGH FLOW

EDGE® COLD PLANER - HIGH FLOW

Few attachments can hold up to the daily abuse or meet the heavy-duty requirements of milling attachments. Designed for precise asphalt and concrete cuts, milling attachments are also valuable for utility crews and cable installation.

OPERATIONAL BASICS

The EDGE high flow cold planer is a valuable tool for road construction and maintenance crews. Asphalt and concrete are quickly milled due to the high torque generated by the planetary gearbox. High flow models feature electro-hydraulic side-shift control, tilt/depth control and are single-circuit with 3 hydraulic lines. The EDGE high flow cold planer comes complete with wire harness and control box, hoses, a hose saver kit, flat face couplers and asphalt picks.

SPECIFICATIONS

Model	Weight (lbs/kg)	Hyd. Req. (gpm/lpm)	Tilt (degrees)	Max. Depth (in/mm)	No. of Picks	Working Width (in/mm)	Sideshift (in/mm)
CP16HF	1708/774.7	24-45/91-170	+/- 15	6/152	48	16/406	24/610
CP18	1773/804.2	26-45/98-170	+/- 15	6/152	52	18/457	24/610
CP24	1925/873.2	28-45/106-170	+/- 15	6/152	64	24/510	24/610
CP30	2134/968.0	28-45/106-170	+/- 12.5	6/152	76	30/762	24/610
CP36	2235/1013.8	34-45/129-170	+/- 10	6/152	88	36/914	24/610

FEATURES

- Ideal for milling frost heaves, traffic lane stripes, pothole repair, and more
- Optimized tooth pattern to deliver power where needed
- High-flow models feature hydraulic side-shift and tilt/depth adjustment
- Mills up to 6" deep
