

EDGE® COLD PLANER - STANDARD FLOW
 Few attachments can hold up to the daily abuse or meet the heavy-duty requirements of milling attachments. Designed for precise asphalt and concrete cuts, milling attachments are also valuable for utility crews and cable installation.

OPERATIONAL BASICS

The EDGE standard flow cold planer is a valuable tool for road construction and maintenance crews. Asphalt and concrete are quickly milled due to the high torque generated by the planetary gearbox. The EDGE standard flow cold planer comes complete with hoses, a hose saver kit, flat face couplers and asphalt picks.

Simple milling depth controls

Easy to adjust side shift

Easy open cover for access to picks

Optimized tooth pattern for power where needed

SPECIFICATIONS

Model	Weight (lbs/kg)	Hyd. Req. (gpm/lpm)	Tilt (degrees)	Max. Depth (in/mm)	No. of Picks	Working Width (in/mm)	Sideshift (in/mm)
CP12	1033/468.6	13-25/49-95	+/- 15	5/127	36	12/305	24/610

FEATURES

- Ideal for milling frost heaves, traffic lane stripes, pothole repair, and more
- Optimized tooth pattern to deliver power where needed
- Feature side-shift and tilt/depth adjustment
- Mills up to 5" deep
