

### EDGE® TREE SHEARS

Ideal for clearing fence lines and other hard-to-reach areas, the EDGE tree shear is necessary to forestry, landscaping and agricultural applications.

### OPERATIONAL BASICS

The EDGE tree shear features adjustable, high-tensile steel blades. It will clip hardwoods up to 14" (356 mm) in diameter in one snip. The EDGE tree shear blades are made of AR400 steel, a low profile design for excellent visibility, full-length bushings in the jaws and cross-cut "grease galleys" in the hinge pints to ensure a long, trouble-free use.

### SPECIFICATION

Description	Size (in/mm)	Weight (lbs/kg)
Tree Shear	14/356	1460/662
Tree Shear with Double Grapple Arms	14/356	1950/885

### FEATURES

- Cut up to 14" (356 mm) diameter hardwoods in one snip
- AR400 adjustable steel blade
- Low profile design for excellent visibility
- Full length bushings in jaws
- Cross-cut grease galleys in hinge pins
